OSHA HAZARD COMMUNICATION:  
WOOD DUST DATA SHEET (5 PAGES)  
WOOD DUST LABEL (WARNING)**

**IMPORTANT:** The information and data contained herein are believed to be accurate and have been compiled from sources believed to be reliable. It is offered for your consideration, investigation and verification. The Penrod Company (PJC) makes no warranty of any kind, express or implied, concerning the accuracy or completeness of the information and data herein. PJC will not be liable for claims relating to any party's use of or reliance on information and data contained herein regardless of whether it is claimed that the information and data are inaccurate, incomplete or otherwise misleading.

**ATTENTION CALIFORNIA RESIDENTS – Proposition 65 Warning:**

The State of California (OEEHA Prop 65) has classified wood dust as a chemical known to cause cancer in humans. Wood dust can also cause a flammable or explosive hazard. Drilling, sawing, sanding, and machining wood products can produce wood dust. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. California Health and Safety Code Section 25249.6.

- Avoid dust contact with an ignition source
- Recover dust for disposal
- Avoid prolonged breathing of wood dust and contact with the eyes and skin
